

ARMED WOMEN

WHO KNOW THE USE OF PISTOL AND STILETTO.

Ladies Who are Credited with Being Good Shots Before a Target. The Sales of Deadly Weapons to Women—What They Say and What They Look Like.

New York Sun.
"I don't know where the women get the practice," the superintendent of a rifle and pistol gallery said, "but I tell you I've been surprised many a time at seeing what good pistol shots some are. There are at least a dozen whom I know by sight, but of course I don't know their names, that I'm sure of seeing in front of my targets often every season. Where they practice during the winter I've no idea. I've asked some of the men who keep galleries in the city if any of them ever catch on to that trade, but they say 'No.' No ladies come to them, they say. It must be they hang away in their own houses, up in the garret, maybe, or down in the basement, mayhap plugging a strange cat in the back yard now and then. Anyway, however they do it, they come out in good form for the summer, and I make bull's eyes and inners like an expert. Only a few of them regularly use my dueling pistols. They're a lovely pair of pops, but a little too heavy for ladies' hands. Generally they bring their own pistols, pretty little weapons, pearl-handled, gilt, or silver-plated, and all that sort of thing. As a rule, that sort of pistol doesn't amount to much, but there are some of them which will shoot like a charm. There was, however, one woman who came to my range last summer and wanted to practice with a 'swamp angel'—a howitzer of a weapon of forty-one caliber. I was afraid to let her, for fear she'd break the plate; but I rigged a soft target against a sand bank, and let her blaze away at that. And she could shoot. Her line shooting was a good deal better than most men make, even on the word. She was the only woman I ever saw fire on the word—duelists fashion. She was a tall brunette, Spanish or Mexican I should say, and dressed like a queen. A chap who hadn't anything to say came with her. He didn't shoot. In fact, he seemed to be afraid of the pistol, and he'd have good reason to be if she ever got after him."

A pistol dealer said: "I sell some revolvers to women, but not many, probably not more than twelve or fifteen a year. Those who buy them are always well dressed ladies, sometimes coming in their carriages and with liveried drivers. They buy small revolvers, costing from \$5 to \$10 each. You must not suppose that the latter price only buys a poor revolver. Pistols are down now. You can buy a splendid revolver for \$12 or \$14, a weapon such as a king might not be ashamed to carry. And ten dollars will get a charming one, ivory or pearl handled, nickel plated and engraved handsomely; one that will shoot straight. You see there are a great many women who carry pistols than those who buy them for themselves. Husbands, lovers and brothers buy them as presents. Men who have to away from home a great deal, commercial travelers and others, as a prudential measure in these times of bold burglars and impudent tramps, often deem it advisable to leave their wives in possession of means of self protection. Of course I cannot tell when a pistol is bought for that purpose, but the inference is that such is the intent of the mind of the purchaser when he buys at once two good pistols and that very frequently done. It would be a very good thing if women generally could be taught how to handle pistols. They are the weaker sex, and it would be only fair to arm them so as to give them a little more even chance against lawless members of society. The only trouble and danger about women's handling of pistols is their ignorance of the weapon. Let them be taught how to handle the revolver properly, and to know what deadly work it is capable of, and they will, I think, be even more judicious than men are in its use. Men, as a rule, only use the revolver if advisedly, when they are under the influence of liquor, and women, ladies at least, are not liable to that evil influence. It would be an excellent thing that time when Mrs. DeLary's carriages were torn out by a ruffianly thief, on a fashionable street and in broad daylight, if she had possessed a revolver and been expert enough in using it to bring him down with a bullet in the back."

As the reporter was leaving, the dealer called after him: "One moment more, if you please. If you are going to write anything about the pistol business, do say something against the curse of selling revolvers to women. Nobody outside my business has any idea of the extent and danger of that evil. There ought to be a law against selling a pistol to a minor. Not a week, hardly even a day passes, in which I do not have to refuse to sell a revolver to a boy. Less than six months ago a couple of boys came in here together wanting an outfit of five pistols, cartridges and bowie-knives. I had the good idea of sending out quietly for a policeman while amusing them with pretended sales to them of all the deadly weapons they wanted. When they were arrested, it turned out that they had stolen the money for their armament and intended to go off to the west to fight Indians, incited, of course, by these pernicious flash weekly papers. I will not sell a pistol to a boy, but I will sell stores scattered about town so. And the pawn shops will sell them all they want. I tell you this thing is a very great evil and should be stopped."

A large downtown dealer, who sells both by wholesale and at retail, said: "We sell some pistols to women, but not a great many, and those who come to us to buy appear to be generally Spaniards or Cubans or South Americans. They generally get small, fancy weapons—things that look pretty, but don't cost much and are little good. The fact is that not one woman in forty thousand knows any more about a pistol than about ordering a dinner. They buy revolvers on the same general system that they buy bonnets—by the looks I have heard say that there are some ladies in society who are very good pistol shots, but I don't know any of them, and would not feel justified in mentioning their names if I did. I don't think we have ever sold a dirk or stiletto to a woman."

The mention of that other class of weapon suggested another inquiry of the pistol dealer, who said: "Yes, I have frequently sold small stiletto knives, but always as a rule, only for purposes of dress ornament, and exceedingly pretty things, like this"—showing one with an exquisitely moulded bronze handle—"for instance. They poke them through their bonnets, or jab them through their hair, or something of the sort. I don't believe a stiletto purchaser has had any sanguinary purposes."

Another downtown dealer said: "We have sold some revolvers to women, not many, however, for ours, you see, is more a wholesale than a retail concern, and does more in sporting guns than in pistols. But I have good reason to believe that a good many pistols sold by us to gentlemen are really intended to be presents to ladies. And that reminds me that when a woman comes in to buy a pistol she almost always says it is for a present to a friend, or purchased at the request of a friend who lives in the country. The great sources of supply for women's pistols are the little jewelry shops along the

Bowery, nearly all of which sell small, cheap and fancy revolvers, and the pawnbrokers' shops. These establishments buy them from us by the case, and whoever their customers may be—women or boys, for all we know—er aly they get rid of a great many. I should imagine that there are vast numbers of revolvers owned by women in this country; not habitually carried by them, of course, but kept for purposes of home protection. A woman is liable to have an abiding faith that the sight of a pistol will scare anybody, and from her point of view it may as well be loaded with union seed and peas as powder and bullets. They sometimes scream when our clerk asks if they will have the pistols loaded when they buy them. It is a very common thing to see a woman who is compelled by the necessities of their business to travel a great deal, not infrequently go armed, and learn systematically how to use weapons for purposes of self-defense. In this way some actresses are known to have become very expert pistol shots. Mrs. Scott-Siddons and Mojeska are said to be very good markswomen. Miss Mollie Stewart, who is the life of Gus Williams' combination, is an exceptional good pistol shot, but then, she learned the art first in her Louisiana home, and keeps in practice every summer at Larchmont Manor. It is affirmed that she has been known to pick out at ten paces the spots of a five of spades in rapid succession with bullets from her pretty 32-caliber revolver. There have been overtures made to the proprietors of the new bowling saloon, where the ladies' clubs habitually meet, for the establishment of a private pistol gallery for ladies' practice, and such an addition will certainly be made next season, if not this present.

THE LAND WE LIVE IN.

The Small-Pox in Tennessee—Municipal Election in Hartwell.
HARTWELL, January 10.—[Special].—At an election held yesterday for a new town council the present year, the following were elected: C. W. Seidel, A. J. Watt, S. M. Bobo, W. R. Stevenson, T. P. Harris.—The Hartwell high school opened yesterday. Prof. Morgan H. Parker in charge, with 50 pupils.

What the Papers Say.
SMALL-POX IN KNOX COUNTY, TENNESSEE.
Knoxville Chronicle.
From S. J. Tarver, who was in the city yesterday, we learn that the small-pox is spreading in the northern portion of Knox county to an extent that is becoming rather alarming. The first case that developed, as was published in our columns, was the daughter of George Findle, who lives near Gravelton. It was taken from a traveler who was passing through the country from California, and stopped over night. The young lady, under the treatment of Dr. Scott, is now about well, but the rest of the family are reported all down with the dread disease.

It seems that there was no isolation, whatever, but the family remained in the same house and room with the patient, and the neighbors were continually passing and repassing. The consequence was the spread of the disease. Sam R. Rodgers, United States gauger in the revenue service, reported down with it, and also William M. Clapp, son of Nicholas Clapp, and his wife. Mr. Clapp is reported very bad, not expected to live. Two cases are reported at Gravelton, and also two at Gravelton, just over the Union county line. Dr. Scott and Dr. William Rodgers are waiting on cases in this locality.

Then again there is another locality in the fourth district of this county, where the disease has gained a foothold, and is spreading. Sam Kelly's family, Joe Smith's family, and Morgan Claiborne all have it. Dr. R. K. Arnold is waiting on these cases. No deaths have been reported.

These alarming developments should certainly put the people on their guard throughout the country. There should be more care in isolating the cases when developed, and the neighbors should be kept away to prevent a circulation of the disease. Another precaution should be the destroying of all clothing and bed clothes worn by patients and passing through the disease.

A case of small-pox has been developed in the Chattanooga city hospital, which caused a stampede from that institution. The case was a tramp, giving his name as Dan Murray, who had been in the city only a few days. He claimed to have hailed from Knoxville and Atlanta. No further spread is apprehended, but it is thought the mayor of that place will recommend compulsory vaccination.

A FLORIDA ASSASSINATION.

Macon Telegraph.
We received the following particulars of the tragedy in Florida, mentioned in yesterday's issue: It seems that Mr. Griffin and S. B. Carter, the murderer, had a difficulty on Wednesday, the 4th instant, in which Mr. Griffin killed Carter. Carter swore that he would have revenge, and issued a warrant for Griffin's arrest and had him arrested. Mr. Griffin gave his word for an appearance for trial and set the time to meet the sheriff and court at Orlando, and after dark was sitting in the office of the clerk in company with two other gentlemen. Mr. Griffin was looking over a map of the Disston purchase of Florida lands. The assassin slipped up near the door and shot him in the back with a shot-gun loaded with buckshot or slugs. Five shot struck him in the back below the shoulder blade and two in the arm. Several went through the map and knocked it from his hands. Mr. Griffin jumped up and started towards the hat rack, where his hat was hanging, and walked about ten feet and fell dead. He never spoke after he was shot. The evidence adduced at the inquest is that he and Carter had a difficulty—Carter swore revenge, and borrowed a horse and rode in the country and borrowed a gun, which he used to shoot Griffin. A few moments before Mr. Griffin was shot Carter went and got the gun and walked off towards the hotel, and had just about time to get to the hotel when Mr. Griffin was shot. The jury of inquest found "that, to the best of their knowledge, Mr. Griffin came to his death from a gun-shot wound inflicted by S. B. Carter. Carter, it seems, did not stay in town to be inquest, but to the contrary has not been seen since Mr. Griffin was shot. There has been offered a reward of \$1,000 for the arrest of Carter. Mr. Griffin's remains were carried to Mobile and buried yesterday."

Waystate Gatherings.

The peach trees are blossoming in Florida. On Sunday a mad dog was killed in Mobile, Ala. A sponge culture is a success at Pine Key, Florida. Christian county, Ky., was the great corn county in 1881.

A newspaper will be started in Chattanooga by a colored man. Christian county, Ky., spends \$25,000 yearly on her public roads. Key West, Florida, made its first shipment of tomatoes last week.

There were 288,420 white and 31,776 colored votes in Kentucky in 1881. The sugar crop of Louisiana has fallen off 25 to 30 per cent this year. There is some talk of building a cotton factory at Salisbury, North Carolina. During the past year W. M. Nelson, of Davis county, Kentucky, killed 1,441 squirrels. Columbus, Mississippi, invested \$500,000 in a cotton factory and now the capital amounts to \$1,200,000. The state commissioner of agriculture of Kentucky will have his annual corn show in Frankfort January 17th. The greatest advertiser in the country is a Baltimore manufacturer of liniment, who expends \$200,000 a year. The street cars in Richmond, Virginia, have ceased running on account of the prevalence of pink eye among the horses.

The components of Dr. Bull's Cough Syrup are daily prescribed by the ablest physicians, whose success is due to the specific influence of these components. Dr. Bull's Cough Syrup skillfully prepared for immediate use, is for sale by all druggists.

SIMMONS LIVER REGULATOR.
GREAT GERM DESTROYER.
DARBY'S
PROPHYLATIC FLUID.
Pitting of SMALL POX prevented. ULCERS purified and healed. DYSENTERY CURED. WOUNDS healed rapidly. Removes all unpleasant odors. TETTER dried up. IT IS PERFECTLY SAFE. FOR SORE THROAT it is a sure cure.

SCARLET FEVER CURED.
CONTAGION destroyed. SICK ROOMS purified. FEVERED AND SICK PERSONS relieved and refreshed. Catarrh relieved and cured. Erysipelas cured. BURNS relieved instantly. SCARS prevented.

DIPHTHERIA PREVENTED.
In fact it is the Great Disinfectant of a Purifier. PREPARED BY J. H. ELLIN & CO. MANUFACTURING CHEMISTS, SOLE PROPRIETORS. THE SOURCE OF CRIME, AND THE CAUSES THAT FEED ITS GROWTH.

The Prevalence of Crime Considered as a Product of the Family, Where a Game of Marbles Leads to Gambling and Prostitution, and the way for a Drunkard's Fate.

Professor T. R. Brown, in Indianapolis Journal.

Crimes are violations of law, either divine or human. Laws are made for the protection of rights, whether of the individual or of society. The crimes which affect the individual may be grouped thus: Crimes against the physical person, crimes against liberty, crimes against reputation and crimes against property. Of the second group, we have the laws which protect our enjoyment as social beings, from the primary link in the family up through all the ramifications of society to the state or commonwealth. This category embraces a family of crimes which, from their many strong points of resemblance, we infer their kinship to each other. They are gambling, prostitution, and intoxication. They are each and all recognized as crimes by the divine law, and are made subjects in the criminal legislation of all civilized states. But the careful student of criminal jurisprudence has observed the difficulty of enforcing laws against this family of crimes. This arises, not from any disposition on the part of the citizen to countenance or encourage either of these criminal practices, but merely from his strong individuality. He cannot see that he has any personal interest in the enforcement of the law. If his neighbor's horse is stolen he sees at once that his stable may be invaded, and he bestirs himself to assist in the arrest and conviction of the thief; but if he sees his neighbor ruined at the gambling table, he feels no alarm—he contents himself with the assurance that he is in no danger. If his neighbor dies by the pistol of the midnight assassin and robber, he is alarmed when he reflects that possibly he may be the next victim, and he actively interests himself in assisting the state in bringing the criminal to speedy punishment; but if his neighbor, after years of hard drinking, in which he has broken the heart of his wife and beggared his children, dies of alcoholism, he feels no interest in the question of who did it. He rests in the confident conviction that he will never die of delirium tremens, and therefore feels no personal interest in the matter.

There is a family feature that marks this group of crimes that must not be overlooked. In each case the immediate victim is such, at least nominally, his voluntary act—his own free will and consent. Perhaps this is the chief secret of the public apathy on the subject of these crimes, and the want of sympathy with those who are their victims. The guilty ones say, with the semblance of truth: "I did not persuade them to spend their money with me—I did not even ask them to patronize me; of their own free will they offered their money and I took it." In the letter, this is true; but in the spirit of the matter it is false. No man squanders his money on either of these vices till he has so blunted his moral sensibilities and paralyzed his will power as to lose his self-control. Surely no man with proper regard for himself will voluntarily pursue a road which he daily sees leading others to ruin. Our social philosophers have not studied these crimes profoundly.

There is a peculiar condition of the nervous system which produces a sensation that is technically known as exhilaration. It has heretofore been confined with stimulation, but the two conditions are every way different. In exhilaration the nervous sensibility is perverted but not increased, and the expenditure of vital force is diminished. The pulse is more frequent, but it is slow, full, fullness and force. There is not a single element of stimulation about the condition—it is simply a sensation—a nervous thrill, but in this thrill consists the fascination that leads, by the way of these vices, to self-destruction. Exhilaration may be either objective or subjective; that is, the sensation may be produced from without by some physical agent, such as alcohol, opium, or chloroform, acting on the sentient extremities of the nerves, or it may be the reflex action of the mind on the nervous system. The fascination that leads the drunkard and the gambler down to ruin may be taken as typical of these two modes of exhilaration. The exhilaration that fascinates the gambler, being merely a sympathetic influence is less violent than the physical influence of early life, often, but hardly less powerful in paralyzing the will and perverting the sense of duty. But this love of exhilaration which so fascinates thousands is not a normal condition; it is a development. No man is born a drunkard or a gambler, though an aptitude to acquire the habit of either, or both, may be a hereditary transmission, but it will require practice to develop the habit. From this standpoint we can readily see how people become drunkards, prostitutes, or gamblers, without any deliberate purpose of self-destruction.

These crimes almost invariably originate in the minor vices of early life, often in the sanctity of home and under the eye of fond but short-sighted parents. The game of marbles, "for keeps," or some game of cards in the parlor, with coppers for stakes, just to excite interest in the game, may be the initial step to the life of many a gambler; and the wine glass on the sideboard, the beer at dinner, or the evening mug of hard cider, taught in childhood to be taken as a matter of course, may lead to the unsuspecting victim, by the way of a saloon, to a drunkard's grave. Whatever may be true of the physical world, it is certain that crime, in general, and this family of crimes in particular, are developments from primordial germs, usually so small as to escape attention. Thousands of drunkards are made in the cradle by the mistaken kindness of a fond mother, who, in her eagerness to give the fretful baby rest with soothing syrup, or some other alcoholic nostrum. Thus the exhilaration of the cradle, the sideboard, the parlor card table and the sensational literature of the home, stamps its inevitable ruin on many a bright youth. But germs are comparatively harmless without the means of development. In the family we can operate only by wholesome influences. But in most instances parental love will be a sufficient safeguard, if parents know the danger and fully apprehend its magnitude. But the true nature of these crimes, and their insidious character, should be more generally taught and better understood by parents than at present. Especially should the monstrous absurdity, that small vices may be indulged in without danger—that light wines and parlor cards lead to lives of sobriety and honesty—be fully exposed.

But when the youth crosses the threshold of the parental home, and enters the great social world, then the duty devolves on society to do it as difficult as possible to develop a vicious character, and as easy as possible to form a virtuous one. With regard to the two minor vices of this family, society has discharged its duty with a fair degree of fidelity. We know, for reasons already stated, how difficult it is to punish crimes against society at large, but our laws against gambling and prostitution, though imperfectly enforced, have compelled these crimes to hide themselves in such concealment that the youth, unless he is already sufficiently debauched to go in search of them, will never find them. But the major crime of this trio is suffered to flaunt its glories in the streets, and to the amusement of the young and the thoughtless. It is a crime to be a drunkard, but it is a greater crime to make a drunkard, in the one case there is the powerful fascina-

tion of alcoholic exhilaration that pleads, if not an apology, yet some extenuation of the crime; but in the other, the sole motive is the sordid love of gain, the lowest and most passionate of all passions. The crime of public drunkenness society punishes with a feeble hand, but to the greater crime the law is blind. Nay, so far from recognizing and punishing the crime of making drunkards of her sober citizens, the state has hitherto thrown around the business of the saloon a protection, aiming to make it a legitimate industry, and even conceding to it the right of its own gains. No good reason can be given why we should prohibit the keeping of a gambling house, and send its professional keeper to the penitentiary as a common felon, and at the same time license, protect, and to that extent encourage, the keeping of a drinking-house. The one makes gamblers, the other drunkards, and no man will dare to say that the former is a greater crime than the latter. Both end in the ruin of the citizen, and an indictment on society at large, but not in the same degree. The gambler may beggar his family, the drunkard may ruin his; the gambler blunts his sensibilities, the drunkard utterly paralyzes his; the gambler retains his physical health, while the drunkard makes a wreck of his, and inflicts his pauper posterity on society. Finally, the major crime in this family of crimes against society is shown in the fact that gambling houses and houses of prostitution invoke the aid of alcoholic exhilaration for the successful prosecution of their business, while a drinking house is strong enough to run alone, without the aid of its twin brothers. The public good urgently calls on the powers that be to place this stronger and more injurious crime against society in the same category of prohibition where the law has already placed its junior brothers. We are making commendable progress in the direction of moral reform, and since there has been inspired to separate him from his wife. After her arrest it was discovered that she was wanted on several charges of attempting to defraud a prominent business man. This has been one of the pillars in a Sunday-school and a leading Episcopal church member.

JENNIE BLINK'S INSPIRATION
To Separate a Married Couple—A Peculiar Case.
PHILADELPHIA, January 11.—For months the wife of W. H. Anderson, a respectable clerk of this city, has been in receipt of scores of communications signed "Jennie Blink," and containing such passages as this: "God says I must have him, and I shall obey the Lord." The woman, however, from place to place to avoid the annoyance, but the flood of letters continued to pour in, and the matter was placed in the hands of the chief of police. Officers were detailed to watch the postal boxes in different sections of the city where the letters were deposited, and to-night the writer, a good-looking woman of thirty, was arrested. She is said to be a person on one occasion, and since then has been inspired to separate him from his wife. After her arrest it was discovered that she was wanted on several charges of attempting to defraud a prominent business man. This has been one of the pillars in a Sunday-school and a leading Episcopal church member.

THE GOLDEN SANDS
Which Lie at the Bottom of Our Mountain Streams.
From a gentleman who was in the city yesterday THE CONSTITUTION learns of the success which has attended the experiments with the vacuum dredging boat which was built for work on the Chesapeake river. It will be remembered that this boat was built for raising the gravel from the beds of the rivers and for washing the gold from it. The questions to be decided were: Could the gold be found in paying quantities in the sands of the river, and could it be raised by the vacuum dredging boat? The trial of the boat was made last Saturday on the Chesapeake river near Martin's farm. The test commenced at eleven o'clock and lasted until five o'clock. The boat was in operation for two hours and four minutes every five minutes. This sand was rapidly washed automatically in sluice boxes and the gold was separated in quicksilver. As the result of the three hours' work there was secured two hundred dollars worth of gold. The expense was not more than twelve dollars. The sand was found to be very rich, and it is said there is enough in the rivers of Georgia to keep fifty boats busy for fifty years. Much excitement, it is said, prevails about Dahlonega on account of the new method of obtaining gold. The company which is pushing the matter will begin the construction of a number of other boats at once.

MACON'S ART EXHIBITION.
The People Taking a Lively Interest in the Matter.
MACON, January 11.—A large and enthusiastic meeting of representative citizens was held in this city to-day to discuss plans for the grand national art exhibition. The original intention of the projectors was to have the exhibition in May, but the enterprise has met with such encouragement and assumed such proportions as will necessitate more time to acquire the necessary funds. The meeting was presided over by Rev. Dr. A. J. Battle, president of Mercer university, who addressed the meeting.

He was followed by Colonel Thomas Hardaway, who presented a paper on the subject. Committees were appointed and will report plans and a programme at an early date. The exhibition will probably be held in October next, and the projectors expect to make it superior to anything of the kind ever before attempted in America.

THE ASHLAND WRETCHES.
They are Brought Back to the Scene of their Wickedness for Trial.
CAULETSBURG, Ky., January 11.—[Special.]—The steamer Telegraph arrived at 3 o'clock with Ellis, Craft and Neil, charged with the murder of the Gibbons family at Ashland. They were under guard of three companies of militia. Although the town was filled with excitement, the prisoners were taken and taken to the court-house without any excitement or indication of violence. Craft and Neil, who were handcuffed together, tried to show a spirit of boldness by chatting and making fun of their captors. The prisoners were quiet. He was taken immediately before the grand jury, which will probably be in session all day to-morrow. The prisoners are kept in the court-house, and are not allowed to leave under close guard of fifteen soldiers. The people are impatient for the trial proper to begin.

AN INDIANA TRAGEDY.
Illust. Love, Murder and Suicide.
CINCINNATI, January 11.—A Gazette special says: Andy Frazer, a negro, was arrested to-day charged with the assassination of John Walton, a farmer, near St. Paul, Ind., last night. Frazer confessed and said he had been promised a large reward by O. M. Garrett, a neighbor of Walton's, for the murder of Walton. Garrett was arrested and taken to the justice's office where, before the trial began, he obtained permission to go to an out-house with the guard and suddenly drawing a revolver he fired a shot which struck Walton in the chest, killing him. He retained consciousness long enough to make a dying statement, and denied he hired Frazer to do the killing, but he indicated that he was more likely to be the one. It is stated that Garrett and Frazer, Walton have been suspected of intimacy for some time. The citizens are much excited.

A New York Banker's Growth.
NEW YORK, January 11.—An old banker said: "I see that Bank Superintendent A. P. Hepburn has been repelled from Georgia by the new company that have a shilling marketable bond, not to invest in Bank superintendents, but to purchase or as collateral for loans, because that state is in record as having repudiated the debt. The action of the superintendent meets with general approval and is lesson for Georgia and all other states that have a shilling marketable bond, not to invest in Bank superintendents, but to purchase or as collateral for loans, because that state is in record as having repudiated the debt. The action of the superintendent meets with general approval and is lesson for Georgia and all other states that have a shilling marketable bond, not to invest in Bank superintendents, but to purchase or as collateral for loans, because that state is in record as having repudiated the debt. A DISPUTED TREASURE.

AN AUTHENTIC ACCOUNT OF ITS FINAL DISPOSITION

President Davis Never Saw the Treasure—He had Only About \$500—An Interesting Story of the Last Wanderings of the Defeated and Disbanded Government.

WASHINGTON, D. C., January 9.—[Cincinnati Enquirer].—Mr. M. H. Clark, of Clarksville, Tenn., who was acting treasurer of the so-called confederate states of America when the collapse came, has written a letter, under date of January 6th, to Representative House, of Tennessee, in which he sets forth the facts about the treasure lost when Jeff Davis was captured. Mr. Clark says:

"As I am in a position to know all the facts, I think it not improper to state them as briefly as I can. I left Richmond, Va., the night of the evacuation on the special train containing the president, his staff, his cabinet and many other government officials, being at the time chief and confidential clerk of the executive office. The party reached Danville the next day, where the government offices were partially organized, remaining there until the 10th of April, when news of General Lee's surrender was received. The next move was to Greensboro, the headquarters of Beauregard's little army."

"A stay of some days was made there, and as the railroads had been cut in many places south of us by the federal cavalry, who were still raiding to the southwest of our line of travel, I made up a train of wagons and balances for the use of the party, for which General Beauregard gave a carte blanche order on his quartermaster and commissary departments, with which train the party proceeded to Charlotte, N. C. General Beauregard also ordered up the small cavalry division under General W. C. P. Breckinridge as an escort, to which President Davis demurred—possibly for the reason that he did not wish the small force in front of General Sherman weakened to give him personal protection—but finally consented, as it gave protection to his following, which was composed partly of helpless civilians, but even then avoided the road taken by his escort."

"After a stay of about a week at Charlotte, where we heard of the assassination of President Lincoln, the route was to Abbeville, South Carolina, reaching there the 3d of May. At Abbeville the train of the treasury department reported, it having followed a different line of travel under the protection of the small naval force under Admiral Semmes, who had guarded it faithfully, keeping all its valuables intact. This was the first time we had met, and at Abbeville the trains, escort and all, came together. Admiral Semmes asked to be relieved of his voluntarily assumed duty (which had been necessary, as General Stoneman's cavalry had several times struck parties within ten or fifteen miles of these different camps, being in the main on parallel lines), and the train was placed in charge of the cavalry—General Basil Duke's command—and ordered to Washington, Ga."

"General Tremblay, secretary of the treasury, had been left at distance back of the train, and at Abbeville the president appointed Postmaster-General John H. Reagan acting secretary of the treasury. The treasurer, Mr. J. N. Herndon, had been left at Greensboro, N. C., with a moderate military chest for the use of the army there, the specie, mainly Mexican dollars, and amounting to \$40,000, according to the treasury report, being the weather being hot for day traveling, the presidential party also left for Washington, Ga., arriving about sunset on the 4th of May. As soon as we arrived at the capital, the secretary of the treasury, asked the president to appoint me acting treasurer in place of Mr. Herndon, who had been left at Greensboro, N. C., the treasury since that time having been in charge of the bureau officers. I had some time before received a staff appointment, with the rank of captain."

"The president made the appointment, Mr. Reagan drew up my commission, and President Davis affixed to it the last official signature he ever made. I, of course, preserve it as a precious relic. The entire treasury was turned over to me, and I spent the day in filling the requisites of the acting secretary. I settled with the depositors, who had followed with the train—some all the way from Virginia; I paid off the naval brigade, through Postmaster Wheeler, of Nashville; paid off the troops who were near us, through the proper accredited officers; burnt millions of bonds and currency in the presence of Secretary Reagan and General J. C. Breckinridge, secretary of war, turned over to the Virginia bank officers the specie which belonged to the Virginia banks, which they had never been able to obtain from the treasury for want of proper officers to deliver it. One of my last acts was to turn over to Major Moses, a confederate states agent, \$40,000 in silver, mainly bullion, which the president had ordered to be used in furnishing subsistence to the paroled soldiers who were passing through to their homes, thus relieving them and the distressed country through which they were passing."

"I took proper receipts for all my payments, and with the whole treasury disbursed, except an insignificant sum, in company with the acting secretary I left Washington about eleven o'clock at night, with a small escort given us by General Duke, which we shortly dismissed, and joined the president's party next morning about day-break. There I again took charge of my train, and on the morning of the sixth President Davis heard of the danger to his family, who were traveling some distance from him, upon my search for horses. He decided to take his staff and a few attendants and join them, the train to proceed to Florida—the intention, as understood, being there to take boats to Cuba, and from there to the trans-Mississippi department. As I was more likely to be captured with the train than with the mounted party, in order to provide means for the transportation to Cuba, I called the staff together and paid (Colonel F. R. Lubber, A. D. C. (former governor of Texas); Colonel William Preston Johnston, A. D. C.; Colonel John Taylor Wood, A. D. C.; and Colonel J. H. Moore, A. D. C. (a naval officer) each \$1,500 in English sovereigns, to be used in buying boats or other expenses, and took their receipts in due form. Having a bag which still contained about \$5,500, I placed it in the saddle-bags of Mr. Reagan. He objected, saying he was already weighted, having \$2,000 of his private funds brought from Richmond, but upon my urging that the party might need it, he let it remain."

"President Davis to the best of my knowledge, had only some \$50—perhaps \$100—of specie and confederate currency, his private funds. The whole treasury passed through my hands as acting treasurer. The president never saw the treasure nor any disbursements of any part of it. He could only have received any of it through me. I did not offer to pay him anything, and he would not have received it if I had."

POLITICAL REFORM IN GEORGIA.
The Republicans Want Longstreet in the Cabinet—Independent Movement to Clean Out Bourbonism.
WASHINGTON, January 6.—[Special to the Cincinnati Commercial].—Marcellus E. Thornton, of Atlanta, who has been prominently identified with the independent movement in Georgia, in the course of an interview to-day said, in reply to the question:

"It is asserted that, in the event of your taking the lead in an independent movement, you will have the active support of the administration?"

"As to that," he said, "I have no opinion."

however, that any step toward the overthrow of bourbonism in any southern state would receive all the aid and encouragement that the administration could properly extend."

"It has been stated that General Longstreet is being urged for a position in the cabinet of President Arthur; that you will be appointed to the United States marshalship thus vacated, and that these changes are to be made with the view to aiding the liberals to carry the state in the gubernatorial election next fall."

"I would be glad to see General Longstreet thus distinguished. He is a stalwart republican, and has been much maligned for so being. I know he stands ready to aid and encourage every way any liberal movement in Georgia that would dislodge the state from bourbon rule. As to my being appointed United States marshal in his place, I suppose that arises from the fact that I was an applicant for the position when it was last vacant and withdrew in favor of General Longstreet."

"How have recent democratic state administrations in Georgia contrasted with republican administrations since the war?"

"The only republican administration since the war was that of Governor Bullock. There was more real substantial prosperity in the state under that than under any or all of the democratic administrations since. Under the peculiar methods of the bulldozing bourbonism Governor Bullock was a fugitive from the state for several years. Upon his return he was tried under a democratic administration and great pressure brought upon the court to secure his conviction, but the result was his triumphant acquittal."

"What, in your opinion, is the present status of the independent movement in Georgia and what are its relations to the republican party?"

"There is a strong following of independents in every county in the state, and organization for the governorship there are the best grounds for expecting the success of the independent candidate. It only requires the selection of an acceptable man to head the ticket, whose good faith can be relied upon, and in the adoption of a liberal platform, opposed to the chain-gang system, and disfranchisement for minor offenses, opposed to the leasing out and murdering of convicts, and the permitting of criminals to run at large, and swell the calendar of rapes, burglaries, and murders throughout the state; in favor of a more liberal provision for general education, and the repeal of the present constitutional provision which requires one-half more of the otherwise qualified voters in the state, especially those of the colored race. A trustworthy candidate upon such a platform would receive the unqualified endorsement of the republican state convention for the governorship, and would surely be elected. On such an issue the republicans and independents of Georgia would have a common interest and a common sympathy. Neither can succeed without the other, and an independent can get in more votes from the democratic party than a straight republican could. The republicans while they do not desire a bourbon success next fall, will not be satisfied with anything short of a candidate who could be relied upon to carry out the independent platform, nor will they accept a platform made up of two-thirds milk and water."

"Will there shortly be any organized movements of the independents in your state?"

"There is a probability that a conference of leading independent will be called to meet in Atlanta early in the coming spring to devise the plan of a state campaign. This will be followed by a call in each county to organize and elect delegates to a general convention which shall make a platform and nominate a state ticket."

"A gentleman in Warren, Pa., Mr. F. Baltzinger, suffered so with rheumatism that he was unable to put his feet to the floor. A friend recommended St. Jacobs Oil, and twenty minutes after applying it, all pain had vanished. The use of less than two bottles performed a perfect cure. He says he would as soon be without bread as St. Jacobs Oil."

After All Else Failed.
ATLANTA, Ga., Feb. 23, 1881.
H. H. Warner & Co., Sirs:—I exhausted all other remedies for kidney and liver diseases only to find complete cure in your Safe Kidney and Liver Cure. S. CHAMBERLAIN.

A dress coat is the proper garment to wear at a swell dinner. It doesn't button in front, and gives you a chance to swell.

Given Up by Doctors.
"Is it possible that Mr. Godfrey is up and at work, and cured by so simple a remedy?"
"I assure you it is true, that he is entirely cured, and with nothing but Hop Bitters, and only ten days ago his doctors gave him up and said he must die!"
"Welladay! That's remarkable! I will go this day and get some for my poor George—I know hops are good."

Bronze leather figures applied on plush are one of the eccentric trimmings for winter costumes.

If You Wake up in the Morning
with a bitter, bad taste in your mouth, take Simmons' Liver Regulator. It cures bilious stomach, sweetens the breath and cleanses the furred tongue. Genuine prepared only by J. H. Zeilin & Co.

If a man be gracious and courteous to strangers, it shows that he is a citizen of the world.

Take Portaine, young lady, if you desire a pretty complexion. It will remove all disorders of torpid liver, headache, sour stomach, dyspepsia, etc.

MAGNOLIA BALM

A SURE RECIPE For Fine Complexions.

Positive relief and immunity from complexional blemishes may be found in Hagan's Magnolia Balm. A delicate and harmless article. Sold by druggists everywhere.

It imparts the most brilliant and life-like tints, and the closest scrutiny cannot detect its use. All unsightly discolorations, eruptions, ring marks under the eyes, sallowness, redness, roughness, and the flush of fatigue and excitement are at once dispelled by the Magnolia Balm.

It is the one incomparable Cosmetic.

Seal this bottle with your name.

KIDNEY WORT

THE ONLY MEDICINE IN EITHER LIQUID OR DRY FORM That Acts at the same time on THE LIVER, THE BOWELS, AND THE KIDNEYS.

WHY ARE WE SICK? Because we allow these great organs to become clogged or torpid, and poisonous humors are therefore forced into the blood that should be expelled naturally.

KIDNEY WORT WILL SURELY CURE KIDNEY DISEASES, LIVER COMPLAINTS, PILES, CONSTIPATION, URINARY DISEASES, FEMALE WEAKNESSES, AND NEURALGIC DISORDERS.

By causing free action of these organs and restoring their power to throw off disease.

Why suffer Billions pains and aches? Why tormented with Piles, Constipation? Why frightened over disordered Kidneys? Why endure nervous or sick headache?

Use the KIDNEY WORT and rejoice in health. It is put in Dry Vegetable Form, in one can one package of which makes six quarts of medicine. Also in Liquid Form, very Concentrated, for those that cannot readily swallow.

It acts with equal efficiency in either form. GET IT OF YOUR DRUGGIST. PRICE, \$1.00.

CHICAGO SCALE CO., 147, 149 and 151 Jefferson Street, Chicago.

MORE THAN 300 DIFFERENT VARIETIES. Buy the Best Quality at Lowest Prices.

COTTON COMPRESS.

NEW MORSE COTTON COMPRESS.

The Largest and Most Powerful Compress on the Earth.

With a Lifting Power of 3000 Tons.

THIRTY-FIVE have been built and erected in our years; and for this period twice as many as all other compresses, and in the last two years five times as many as all others combined in the United States, making the investment in the Morse Press over one million dollars in four years. 400,000 pounds of material are required for a single compress, and only iron is used of the highest known grade. Their immense weight, strength and durability, make them in the end, the cheapest compress in use, and the one to meet the commercial demands of the present and future. Several of these first built have now compressed from 400,000 to 500,000 bales cotton, without defect or perceptible wear. They have secured a density (measured in the press) of 70 pounds to the cubic foot.

A FEW CHIEF MERITS.

1. It is, in all respects, simplest in construction, and least liable to disorder or breakage.

2. It is a steam power, and works faster than any of the hydraulic presses and has no packings to give out, when delays would be ruinous.

3. It has fewer points in motion, and consequently less wear and friction than any other compress.

4. Its wedge-shaped rack and cycloidal sectors secure progressive leverage, nicely adjusted to overcome the increasing density of the bale, as the platen is brought home.

5. Its superior power has reduced freight to a minimum, and wherever located, has made the business of compressing wonderfully successful, and at many interior points has doubled the receipts of cotton.

6. Its superior power has reduced freight to a minimum, and wherever located, has made the business of compressing wonderfully successful, and at many interior points has doubled the receipts of cotton.

New Orleans alone has nine of these mammoth presses; Memphis, three; Houston, three; Norfolk, three; others at Mobile, Galveston, Breunham, Dallas, Fort Worth, Paris, Jefferson, Shreveport, Little Rock, Vicksburg, Meridian, Columbus, (Miss.), Selma, Wilmington, West Point, Va., Jones and St. Louis, and one may be seen daily at work in this city, (Atlanta). For descriptive circulars and particulars address

S. B. STEERS, Sole Proprietor, New Orleans, La.

FROM OUR REPORTERS' POCKET CAMERAS.

Yesterday in the City—What was Done and Said by Home-Folks and Strangers—The Chief of the Town as Taken on the Fly—In and About the Courts and Departments.

ASSAULT.—Riley Mangum is in the calaboose, awaiting a trial upon a warrant charging him with assault and battery. A negro man named Dobbs is the complainant.

A DULL DAY.—Yesterday was a dull day with the justice courts so far as criminal business was concerned. Some of the courts were busy with civil cases, but there was in none of them anything of general interest.

A FREE LECTURE.—To-night at eight o'clock Mr. B. Clark Wheeler, a mining geologist, of Colorado, will deliver a free lecture in the hall of the house of representatives, at the capitol. He will treat of the mining interests of Georgia, as well as the wonders of the Rockies.

SICK.—Chief Connolly is at home sick and the probabilities are that the city will lose his valuable services for several days. During his absence from his post Captain William Starnes will act as chief of police and Officer Moss will fill the place made vacant by Captain Starnes's temporary elevation.

TO WASHINGTON.—Mr. Walter Johnson, postmaster at Columbus, and Dr. C. W. Arnold, postmaster at Albany, passed through the city yesterday en route to Washington City. Colonel Buck will probably leave for the same city on Saturday next. He will be joined in Washington by Collector Clark.

PARDONED.—Yesterday the governor issued a pardon to William H. Woodhouse, the colored justice of the 4th district, G. M. of Chatham county, who was on the 10th of December convicted of malpractice in office. The sentence of the court removed Woodhouse from office and subjected him to a fine and imprisonment. The pardon restored him to his office, but he at once presented his resignation, which was accepted.

SILKES BONDS.—Yesterday at 11 o'clock a most happy marriage occurred at Flat Shoals. Deputy Revenue Collector A. W. Port was united in marriage to Miss Mattie Stanley. The ceremony was performed at the residence of the bride's father. Mr. Port has been in the revenue service for a long time and stands well there. His charming bride is in every way a most estimable lady and the two have the sincere good wishes of many friends.

CITY COURT.—The city court met yesterday at the usual hour, the Hon. Richard H. Clark, judge, presiding.

The case against Ida Cotton, charged with larceny, resulted in a mistrial. W. G. Higginbottom, charged with assault and battery, was convicted and sentenced to pay fifty dollars or serve two months.

The case against G. B. Horton, charged with larceny, was taken up but was not concluded.

CATCHED IN THE HOUSE.—Early yesterday morning Captain Couch's attention was attracted to a house on Collins street in which loud cries were heard. A hasty entrance disclosed the fact that the inmates of the house had been aroused by a burglar, who was industriously pilfering the bureau drawers, and who declined to surrender when the police made their appearance. But after a hard fight in which the negro, whose name was subsequently found to be Charles Brown, was badly beaten, he was landed in the calaboose.

THE GRAIN ELEVATOR.—Atlanta's first grain elevator has been completed, and the first grain will be stored there to-day. The handling of the grain will be witnessed by a large number of our business men who will assemble there at two o'clock in response to handsomely printed tickets of invitation sent out by the company. They will also examine into the mysteries of the elevator. The elevator cost \$33,000, and has a storage capacity of 200,000 bushels. It will prove a valuable addition to Atlanta's enterprises, being supplied with the latest improved machinery. The gentlemen who go through the building to-day will find much there that is interesting. The company is composed of Judge S. B. Hoyt, Messrs. H. M. Cottigham, Howell C. Jackson and W. H. Canable.

ROBBING HIS FATHER.—Tuesday evening last a negro boy who gave his name as Wyatt Touchstone went to Captain Couch and stated that he had been robbed of one hundred dollars by a negro woman at whose house he was stopping. Wyatt then described the money he had lost and asked the captain's aid in recovering it. Later in the day a telegram was received at police headquarters asking for the arrest of "Wyatt Touchstone." The message was from Griffin, and after giving an accurate description of Wyatt, stated that he was wanted for robbery. The telegram was seen by Captain Couch, and in a short while he was in front of the house where Wyatt had told him he was stopping. An entrance brought the officer face to face with Wyatt, and in a short while he was in the calaboose. Wyatt, who is a young negro, says that the money belonged to his father, and that he stole it from his father's house on Sunday last.

IMPROVEMENT NOTES.—Mr. Frank Gray, who represented the Pulsumet company at the exposition, says he will be in Atlanta on the first of March backed by a strong company for the purpose of establishing works here for the manufacture of stationary engines.

Atlanta will thrive with a cotton-factory on each side and another in the centre.

The building season will soon be revived in earnest, and promises to be unusually brisk.

The architects are busy with plans and specifications for the handsome residences which will be erected during the summer months.

The new street railroad is paying better than was expected. It will probably be completed to Ponce de Leon springs by the first of April.

Property in the fourth ward is advancing very rapidly in price.

It is rumored.—That there are thirty-three men who expect to be next governor.

That a large majority of them will be disappointed.

That a prominent Georgian has disinherited his son because he married a pretty seamstress whose greatest fault was the smallness of her bank account.

That some of the Atlanta beggars make more money than nine tenths of the skilled mechanics who work all day.

That a marriage at the poor house is looked for at an early day.

That the mud in the streets is two feet deep in some places.

That a company will commence work on a factory here in March for the manufacture of stationary engines.

That the man who keeps up with the political procession this summer had better be armed with a canteen of ice-water and a palm leaf fan.

That we will realize all our expectations regarding the results of the exposition, so far as the building up of Atlanta is concerned.

Call at our office, No. 50 Marietta street, and get plats of our auction sale, Tuesday, January 17th, at 3 p.m. I. Y. SAWWELL & SON.

See our advertisement in the 10 cent column of auction sale, Tuesday, January 17th, at 3 p.m. I. Y. SAWWELL & SON.

It is estimated that the sum of 500,000,000 marks (\$125,000,000) would be required for the purchase of the German railways by the state, as intended.

PERRY DAVIS' PAIN KILLER

Rheumatism Neuralgia

Sprains, Pain in the Back and Side.

There is nothing more painful than these diseases; but the pain can be removed and the disease cured by use of PERRY DAVIS' PAIN KILLER.

This remedy is not a cheap Russian or Petroleum product that must be kept away from fire or heat to avoid danger of explosion, nor is it an untried experiment that may do more harm than good.

PAIN KILLER has been in constant use for forty years, and the universal testimony from all parts of the world is, IT NEVER FAILS. It not only effects a permanent cure, but it relieves pain almost instantaneously. Being a purely vegetable remedy, it is safe in the hands of the most inexperienced.

The record of cures by the use of PAIN KILLER would fill volumes. The following extracts from letters received show what those who have tried it think:

Edgar Cady, Owatonna, Minn., says: About a year since my wife became subject to severe suffering from rheumatism. Our resort was to the Salt Rains, which speedily relieved her.

Charles Powell writes from the Sailors' Home, London: I had been afflicted three years with neuralgia and violent spasms of the stomach. The doctors at Westminster Hospital gave me my case in despair. I tried your PAIN KILLER, and it gave me immediate relief. I have regained my strength and am now able to follow my usual occupation.

All druggists keep PAIN KILLER. Its price is so low that it is within the reach of all, and it will save many times its cost in doctor's bills. 25c, 50c, and \$1.00 a bottle.

ADMINISTRATOR'S SALE.—BY VIRTUE OF an order of the court of originality of Fulton county, Georgia, at its December term, 1879, will be sold before the courthouse door of said county, in Atlanta, on the first Tuesday in February next, (February, 1882), within the legal hours for public sales, at public outcry to the highest bidder, all that tract or parcel of land, situate, lying and being in said county, commonly called "the barracks," and more particularly described as follows, known and designated as the Swift race track, the same being one mile in circumference and including all the land inside the same, being the same of original land (No. 108) one hundred and eight, in the (14) fourteenth district of originally Henry, now Fulton county, Georgia, containing fifty acres, more or less, lying and being within the incorporate limits of the city of Atlanta and the town of West End. This property is now in possession of the heirs of Thomas Alexander, late of said county, to whom said land belonged.

Terms of sale, one-third cash, one-third at six months, and one-third at twelve months after date of sale, with interest at the rate of eight per cent per annum till paid, the purchasers to get bonds for titles and deeds, when last payment is made.

By R. H. BROWNHEAD, Administrator of Thomas Alexander, deceased.

What We Saw in the City.

Among the passengers who reached the city on the Western and Atlantic passenger train last night at 8:20 o'clock, were Officer Moon, of the Atlanta police force, and Henry Garvin, the young man who is charged with being the party who knifed John Lawless last Saturday night.

It will be remembered that Officer Moon left Atlanta Tuesday for Chattanooga with a requisition for Garvin.

Immediately after leaving the train the officer escorted his prisoner to the station house where his name was entered on the criminal docket, after which he was searched and locked up in cell No. 3.

Just as the door closed upon the prisoner a Constitution representative entered the station house to find Officer Moon sandwiched between Captains Starnes and Bagby, reciting the story of his adventures.

"You see," said the officer, "I got to Chattanooga after dark Tuesday and before eating supper went to their city prison where I met Lieutenant Allen, a gentleman who telegraphed Chief Connolly of Garvin's arrest. I showed my papers to the lieutenant and asked if I could see Garvin. My request was granted, and in a few seconds I was standing on one side of a prison door and Garvin on the other. He knew me, and putting his hand through the bars said: 'How do you do, Dock? I am glad to see you. I was going home to-day, but they arrested me.' I told Garvin that I would bring him back the next day, but to this he objected, and said that he would not come. I then showed him the requisition and tried to persuade him to leave with me this morning at 7 o'clock, but he declined to do so, saying that he would do nothing until he could consult with his lawyer. Of course this detained me until to-night."

"Well," chimed in Captain Bagby, "when was he arrested?"

"On Monday night about 12 o'clock," replied Officer Moon. "You see, Lieutenant Allen was informed through The Constitution of the escape and was on the watch for Garvin, and when Garvin got off the train in Chattanooga Monday night Allen was on to him. There is a Chattanooga painter who formerly lived in Atlanta, and who knew Garvin, and who gave him away to the lieutenant. Garvin, after being locked up, sought a boarding house, and then the Chambers cognomen vanished. After being locked up in the Chattanooga city prison Garvin employed a lawyer who, after examining my papers, advised him to come, and we left there yesterday at noon."

"What's Garvin say?" asked The Constitution reporter.

"He denies the charge but told a friend of his in Chattanooga why he left Atlanta, and this friend gave him away. I have his name and will use him as a witness against Garvin. But you had best see Garvin yourself," said Mr. Moon in conclusion.

"Garvin crawled out of bed," continued Officer Moon, "and while he was dressing in compliance with the officer's request a lot of cards dropped from his pocket. Upon these were printed 'Henry Garvin, Atlanta, Ga., and then the Chambers cognomen vanished. After being locked up in the Chattanooga city prison Garvin employed a lawyer who, after examining my papers, advised him to come, and we left there yesterday at noon."
